

Purusharth Dang

SOFTWARE ENGINEER

DELHI, IN | 9910827473 | purusharthatdang@gmail.com | [LinkedIn](#) | [Github](#) | [Project](#)

Professional Summary

I am a front-end engineer with a strong product mindset, specializing in building scalable and user-centric applications for SaaS products. With experience across IT consultancies, EdTech startups, and B2B platforms, I have a track record of delivering robust, high-performance applications without compromising on code quality, speed to market, and product requirements.

I take initiative and ownership, ensuring clean architecture, reusable components, and seamless user experiences. I have worked extensively with React, Next.js, TypeScript, Tailwind CSS, leveraging tools like Figma, Notion, Jira, Azure, and GitHub to drive cross-functional collaboration and agile development.

Beyond coding, I actively contribute to team culture through code reviews.

Experience

Proqio (Encardio Rite Electronics Pvt Ltd) | Software Engineer

May 2023 – Jan 2025

- Developed interactive dashboards using Highcharts for visualizing complex Proqio project data.
- Implemented end-to-end testing with Cypress, ensuring robust automation via Git hooks using Husky.
- Through this role, I honed my ability to transform complex datasets into meaningful visual insights, reinforcing my technical depth in testing automation, and data-driven product design.
- Maintained clean, scalable, and high-quality code, prioritizing long-term sustainability and maintainability.

Founding Frontend Engineer | Mentorkart | Noida

Dec 2021 – May 2023

- Joined as a founding engineer, leading all frontend development efforts.
- Built and maintained multiple platforms, including a marketing app, student and mentor portal, job portal, and video chat application using Zoom SDK.
- Led a team of frontend developers, fostering a culture of growth and learning.

Delivering high-quality, maintainable code while balancing speed, user needs, business goals, and time to market.

React Developer | Ibyte Informatics Pvt Ltd | Noida

May 2021 – Dec 2021

- First job right after graduation, at iByte I used my time to learn the best practices and get hands-on experience on production level projects.
- Built and maintained multiple platforms, like e-commerce sites and activity tracking monitors.

MERN Developer Intern | Summer Internship at Ibyte Informatics | Noida

May 2020 – Jul 2020

- Summer internship during second year of university.
- Learned and contributed to production level apps and refining my interests towards frontend development.

Education

Vivekananda Institute Of Professional Studies | GGSIPU | Delhi

Aug 2018 – May 2021

- Major: Computer Applications | Minor: Web App Development.
- Fundamentals of UI/UX Design by Google ([Coursera](#)).
